RENOLIT ALKORPLAN

NATURAL SWIMMING POOLS

A natural swimming pool gives an extra dimension to your garden in summer and winter time. In summer the whole family can enjoy a refreshing dive in the cristal clear water. In winter the pool stays a natural water element in the garden.

The combination of a completely biologically maintained swimming pool and a garden pond motivates more and more people to install a natural swimming pool in their garden.

ADVANTAGES

- Can be installed without wrinkles or folds.
- Makes it easy to line stairs and difficult shapes.
- RENOLIT ALKORPLAN natural swimming pond liner is a 1.5 mm thick polyester reinforced liner that guarantees long term water fun in your garden.
- RENOLIT ALKORPLAN liners are hot air welded which guarantees a homogeneous and perfectly watertight finish.
- Accidental damages can be repaired throughout the entire lifecycle of the membrane in a simple and professional way.
- RENOLIT ALKORPLAN natural swimming pool liner is fish and plant friendly

Your natural swimming pool is in complete harmony with the natural environment of your garden.

RENOLIT ALKORPLAN liner is hot air welded which guarantees a perfectly watertight result.

Your natural swimming pool functions on a 100% natural filtering system.

NATURAL FILTERING SYSTEM

A natural swimming pool has no need for an expensive filtering system to keep the water clear. The water is being purified by aquatic plants and by circulation through lava stones.

It can be integrated in your garden without disrupting the natural image every season of the year.

RENOLIT ALKORPLAN⁰⁰³²⁸

- Tensile strength: 800N/50 mm (according DIN 53455)
- Elongation at break: nominal value 10% (according DIN 53455)
- Tear strength: nominal value 100 N (according DIN 53363)
- Shrinkage: nominal value < 1% (according DIN 53377, 6 h/80°C)
- Cold crack temperature: nominal value -20°C N (according DIN 53361)
- Root resistance: no perforations (according DIN 4062 5.7)
